### Verse

A cold wind blows  
And so, my story goes  
Of the baby Claus I tell  
Left on my own alone  
Cast out where dangers dwell  
Without a family  
But fate was kind their love divine  
The Kringle's gave without delay  
That's how I came to be  
The man I am today

### Chorus

So, look for them, look for them, look for them  
And when you find them  
Open your heart to them  
They will be yours  
They will be YOURS  
If you open your heart to them  
They will be yours

### Verse 2

When I was grown  
I left my forest home  
One winter's night  
My mind so deep in thought  
I almost missed his plight  
Abandoned in the snow  
I cuddled Sal my new found pal  
Until the day he went away  
But in my heart of hearts  
I know he'll always stay

### Chorus

### Musical break

### Verse

A kitten moans  
His friend and he alone  
Out on the street they lay  
A sight so sad to see  
And there they would have stayed  
What might have happened then  
But I was there I gave them care  
A family came and did the same  
Two lives were saved that day  
Two lives forever changed

### Chorus

So, look for them, look for them, look for them  
And when you find them  
Open your heart to them  
They will be yours  
They will be YOURS  
If you open your heart to them  
They will be yours

### Final Chorus

All that they want and all that they need  
Is their own sweet home  
The best you can give is to take them to live  
In your own sweet home  
Though I might roam, I will always return  
To my own sweet home  
Though I might roam, I will always return  
To my own sweet home
